Jay Zhou

Frontend & AI Product Engineer

Rosemead, CA · English & Mandarin
contact@jayzhou.work · github.com/JZilla808

Profile

Design-minded engineer building responsive product interfaces and AI-powered web applications with React, Next.js, TypeScript and Node.js. Experience across mobile ordering, payments, conversational AI and independent web products.

Experience

Jun 2024 — Apr 2025

MagicQR Inc. / Fayva

Founding Software Engineer · Front-End

Built mobile QR ordering, customer and staff interfaces, checkout and mobile-wallet payment flows.

Mar 2020 — Present

Surefire Production

Founder & Full-Stack Developer

Build client websites and digital media, bringing design, frontend engineering and product delivery together.

Jun 2018 — Jul 2020

Gesoo

Front-End Developer

Developed responsive product interfaces and collaborated with the engineering team on frontend delivery.

Selected projects

Fayva

Mobile ordering that connects customers and staff through menus, carts and payment flows.

Next.js · TypeScript · Stripe

ChaseGPT

A conversational AI application pairing a responsive chat experience with OpenAI integration.

React · Next.js · OpenAI API

FlippyHop

An original web game exploring grid-based play, procedural levels and unlockable characters.

React · Next.js · TypeScript

Technical focus

React · Next.js · TypeScript · HTML · CSS · Node.js · Git · OpenAI API · Stripe · Firebase · Supabase · AI-assisted development
